

Personal Invitation

Maximus Open Workshop

Integrated Flow Assurance Modelling

Wednesday December 7th, 2011 10:00am to 4:00pm
Westmead House, Farnborough, GU14 7LP
And Tuesday December 6th, 2011 in Aberdeen

We would like to invite you to an open workshop at the FEESA Ltd offices in Farnborough on Wednesday, 7th December from 10am to 4pm. We will continue to hold such sessions, at no cost, on the first Wednesday of the month to further support the growing Maximus user base in the region.

We will also be holding an open workshop, again free of charge, in Aberdeen on Tuesday, 6th December (times and location to be confirmed).

The workshop will be supported by FEESA experts in Flow Assurance and Maximus. The intention of the first session is to have an overview for new users and refreshers guided by our experts using field cases for Life of Field Modelling and Flow Assurance with Maximus. The afternoon session will be more of a support and troubleshooting session, allowing users to discuss actual projects, Maximus cases or future applications for constrained optimisation modelling.

If you or your colleagues would like to attend either or both sessions, please advise me by return email before Friday, 2nd of December so we can plan the numbers and lunch.

Agenda

10:00am-1:00pm	Maximus Refresher and Overview Session
1:00pm-2:00pm	Lunch
2:00pm-4:00pm	Maximus Model Planning and Case Reviews

For more information and to confirm your attendance, please contact Nick Flynn (nick.flynn@feesa.net, or call 01252 372 321)
